

Application Notes Xirrus Access Manager Xam

Getting the books **application notes xirrus access manager xam** now is not type of challenging means. You could not isolated going in imitation of book collection or library or borrowing from your links to way in them. This is an extremely easy means to specifically get guide by on-line. This online message application notes xirrus access manager xam can be one of the options to accompany you when having extra time.

It will not waste your time. believe me, the e-book will totally way of being you other event to read. Just invest little grow old to entre this on-line statement **application notes xirrus access manager xam** as competently as evaluation them wherever you are now.

Now that you have a bunch of ebooks waiting to be read, you'll want to build your own ebook library in the cloud. Or if you're ready to purchase a dedicated ebook reader, check out our comparison of Nook versus Kindle before you decide.

Application Notes Xirrus Access Manager

Xirrus Access Manager (XAM) is a software-based guest and device onboarding solution for Xirrus networks. XAM enables organizations of various sizes (such as corporations, convention centers, hotels) to securely allow guests to access the Internet and/or other network resources. It also securely on-boards employee personal devices to access the corporate network, enabling companies to implement Bring Your Own Device (BYOD) initiatives.

Xirrus Access Manager - WINNCOM TECHNOLOGIES, CORP.

The Xirrus Wi-Fi Array implements Web Page Redirect (WPR) as a web-based means of authenticating users into the Wi-Fi network. The Array intercepts a user's request for access and redirects the user to an authentication page or a splash screen. The Array provides a simple and free means of creating a captive portal.
