Audi A4 B6 Coolant Leak

A4 (B6 Platform) Discussion - Coolant Leak Location 2004 1.8T - I have a coolant leak, some where right under the intake manifold. Does any one have a good picture of what under the intake manifold? I know the coolant hardline on the top split off goes down in between intake 1 and 2 but I am not sure what else down...

Coolant Leak Location 2004 1.8T - AudiWorld Forums

Audi B6 A4 1.8T Coolant Flange Replacement. View Larger Image. . . The coolant flange located at the rear of the Audi 1.8T cylinder head is the source of several common coolant leaks. Made of plastic, it bolts to the head with two threaded studs. In addition to holding the coolant flange in place the studs support a pair of tubing brackets, including a stand-off bracket for the turbo oil line.

Just pulled the intake manifold and only god knows where it's leaking from. I even put Oil UV dye in to find my oil leaks, and Coolant UV dye in the coolant and drove around for awhile. Still can't see where the leak is. But it leaks so much coolant that at idle I can see the coolant flowing underneath the intake manifold so what in the world.

Coolant leak under intake manifold - audizine.com

Hello fellow AZer's. I've searched for power steering fluid leaks but none could answer my problem. While I was driving along out of nowhere my power steering stopped working. I pulled over to inspect the situation and i couldnt find any immediate leaks so i figured the power steering pump failed. When I got back to work i looked up some threads on the topic and I saw that some people were ...

32 Audi A4 Cooling System Diagram - Wiring Diagram List

I have an A4 1.9 TDI 130 Bhp 2004 that's leaking engine coolant badly. I have tried everything but cannot find the source of the leak. The harder I drive, the faster the coolant leaks. For example Drive easy for 50 miles = 1/4 litre coolant, Drive hard for 50 miles = 1 and 1/2 litres. Basically it emptys itself when driving hard.
