Propane generators can be fitted with the same propane tanks as a home barbecue. The propane is used in place of gasoline, which is what most generators use. Propane is combustible and the heat released is used to power a mechanized generator. Propane generators are often used in camping and in conjunction with recreational vehicles.

I have a Onan 2500 LP generator in my Bigfoot camper. This thing has given me nothing but problems. I can't rely on it. When the weather is below zero it doesn't want to start. When it's above zero it starts 8 times out of 10.(At best) I've checked the plug, oil level, vent tube, and checked that the priming solenoid is working. .
