Wooldridge tells you  
that causality in  
econometrics means  
ceteris paribus and if  
the linear population  
model is correct at all,  
then its parameters  
(the betas) are indeed  
ceteris paribus. He

Menger set out to elucidate the precise nature of economic value, and root economics firmly in the real-world actions of individual human beings. For this reason, Carl Menger (1840-1921) was the founder of the Austrian School of economics. It is the book that Mises said turned him into a real economist.
