Printing is a process for mass reproducing text and images using a master form or template. The earliest non-paper products involving printing include cylinder seals and objects such as the Cyrus Cylinder and the Cylinders of Nabonidus. The earliest known form of printing as applied to paper [contradictory] was woodblock printing, which appeared in China before 220 AD.

### **Printing - Wikipedia**

Papermaking is the manufacture of paper and cardboard, which are used widely for printing, writing, and packaging, among many other purposes. Today almost all paper is made using industrial machinery, while handmade paper survives as a specialized craft and a medium for artistic expression.. In papermaking, a dilute suspension consisting mostly of separate cellulose fibres in water is drained ...
