Repair Trane Tam7 Error Codes Troubleshooting Guide

Would anyone have the LED failure codes for A Trane XE1000 heatpump. Mine blinks 3quick-short break-3quick. I think that it may have

Download Free Trane Tam4 Error Codes

something to do with the defrost cycle.

When this occurs the compressor will not come on but the contactor closes and there is voltage through the start capacitor. I can kill the low voltage, wait a while and the LED will resume blinking 1 per second and the pump ...

...

Three flashes from a Trane furnace indicates a draft pressure error, which means there could be a venting issue, inducer problems or pressure switch problem. If there are four flashes, the furnace is indicating an open temperature limit circuit, and if there are five flashes, the system is sensing a flame, but

Download Free Trane Tam4 Error Codes

no flame should be found.
